REPUBLIC OF GHANA

24HOUR ECONOMY & Accelerated Export Development

Ghana's first integrated pharmaceutical innovation park is open for expressions of interest.

The Legon Pharmaceutical Innovation Park (LePIP) — a 2,000-acre, GMP-ready hub at the Osudoku/Ningo Prampram enclave — is inviting pharmaceutical manufacturers, API producers, vaccine and biologics developers, nutraceutical and herbal medicine companies, and diagnostics/medical device makers to register interest in tenancy.

- Shared power, water and cold-chain infrastructure
- Centralised QC labs and effluent treatment
- Access to Ghana, ECOWAS and AfCFTA markets

KEY INFRASTRUCTURE AND FACILITIES

- Reliable power & water
- Cold-chain & logistica services
- Factory shell bulldings
- Centrallised quality control laboratories
- Effluent Treatment
- Pharmaceutical Rescarch & innovation Centre
- Gmp-compliant shared infrastructure

INVESTMENT OPPORTUNITIES

LePIP welcomes investment across:

- Active pharmaceutical ingredients (APIs)
- Generics and essential medicines
- Vaccines and biologics
- Nutraceuticals and herbal medicines
- Diagnostics and medical devices
